Yauco	25	33,853	73.8	47.8

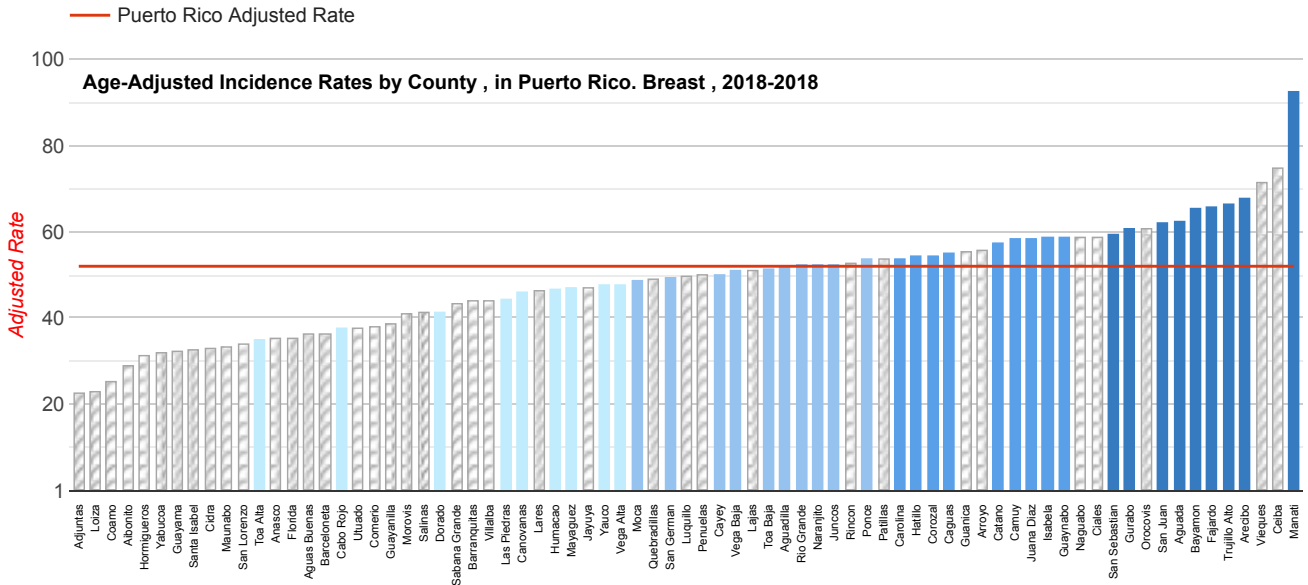

~ Counts/rates are suppressed if less than 6 cases were reported in the specified category.

Counts < 20 are too few to calculate a stable age-adjusted rate.

All rates are per 100,000 population. Rates are age-adjusted to the 2000 PR Std Population (19 age groups)

Based on data released 3/23/2021 Data accessed 11/3/2021 6:11:39 PM

Puerto Rico's 2017 incidence counts and rates are based on the first six months of reported data coupled with half of the population estimate (January to June 2017). Data from July to December 2017 are excluded to account for the population shift that occurred due to Hurricane Maria.

All rates are per 100,000 population.

Rates are age-adjusted to the 2000 PR Std Population (19 age groups)
